URBANA, ILLINOIS

RECEIVED
ADMISSIONS-RECORDS

1958 MAR 5 AM 9:27

March 3, 1958

Deans, Directors and
Members of Administration Staff

Gentlemen:

The Student Coordinating Committee and the Student Societies invite you and the members of your staff to attend the 1958 Engineering Open House, March 14 and 15. Families and friends are also welcome on both days.

A wide variety of interesting displays offer a rare opportunity to see many of the great engineering achievements of recent years. Demonstrations of Hi-Fi and satellite-tracking equipment may prove very interesting to you.

While a tour of all the engineering exhibits would require several hours, a suggested route which would allow you to "sample" is indicated on the center fold of the program.

We are looking forward to the pleasure of your company and feel sure that your visit will be an enjoyable one.

Very truly yours,

John J. Brennan
